

PERCEPTION 2
SNAPCHAT
STREAKS

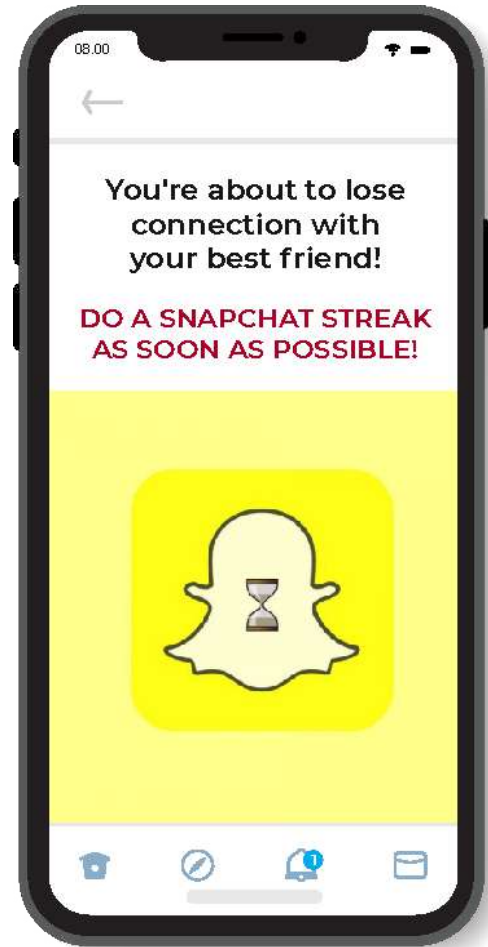

DISCLAIMER

SHARING OF LINKS AND RECORDINGS IS PROHIBITED.
RESEARCH TAKES PLACE ONLY IN A CLOSED GROUP OF PEOPLE.

I STAGE: User Experience:

While scrolling the Snapchat platform, you get a message that you forgot to send Snapchat Streaks, and that the 722 posts you've collected so far, you and the person with whom you're alternately exchanging them, may soon be lost forever.

II STAGE: Wave Function Collapse Perception (WFCP):

As a result, you associate the screen and quote with an observation, that was previously recorded by your consciousness i.e. a video-image, supported by an internal monologue, which is a positive, or negative, experience for you.

For example:

"To be honest, I no longer feel like corresponding with this person.
On the other hand, it's good to stay in touch with her;
you never know what this acquaintance might be useful to me for."

FIRST IMAGE

SECOND IMAGE

In this case, perception is the cause of two conflicting video images;
a conflict has arisen.

The first image; you lose your precious time;
The second image, you don't want to stop it, because of the potential benefit.

III STAGE: Disposal of desire - reification:

The video-image being played activates your desire, i.e. the negative energy charge of the electron e^- , the so-called deficit, which you need to satisfy, utilize as soon as possible.

The task of the desire is to finalize or to avoid the execution of the video image.

Activated is for example:

- The need, the worst advisor is haste; therefore, I do not change anything,
- The need, after all, it does not hurt to take a quick photo and send it as Snapchat Streaks,

Utilization of desire:

The faster and more dynamically the desire is utilized, which is the negative energy charge within your consciousness, the more intense the desire will be when you activate it the next time.

REGAINING TEMPORARY, ILLUSORY CONTROL.

Reward:

The result of the utilization of the desire, is the discharge of the negative energy charge.

However, the neutralization is temporary, and illusory, because when the stimulation of the next observation occurs, the desire is activated again.

DOPAMINE PEAK, CRASH AND DEFICIT

Effect:

Lowering the threshold of resistance response to your desires, and increasing the intensity of the negative energy charge directly affect your immune system.

IV STAGE: Quantum Superposition Perception (QSP):

The attached observations below, along with your declared proactive actions, will annihilate partially the negative energy charge.

In other words, the weaker the negative energy charge of an electron, the stronger your immune system.

In addition:

- you will determine the cause of the collapse of the wave function; i.e., the reason you are addicted to,
- you will not succumb to a negative influences and external factors,
- you will free yourself from the addiction(s),
- you will achieve unshakable faith, in your ability to achieve your goals,
- you will quickly recover from failure,
- you will acquire the desire to succeed,
- you will have full focus on the current task, despite distracting stimuli,
- you will cope well in stressful situations,
- you will raise the threshold of resilience,
- you will experience many other surprising scenarios.

STEP 1. ANNIHILATION OF THE NEGATIVE ENERGY CHARGE OF THE ELECTRON.

**POSITRON "E+"
PROACTIVITY / INCREASE IN RESISTIVITY**

**ELECTRON "E-"
REACTIVITY / DECREASE IN RESISTIVITY**

- The need, the worst advisor is haste; therefore, I do not change anything,
- The need, after all, it does not hurt to take a quick photo and send it as Snapchat Streaks,

Whenever one of the above desires is activated, instead of immediate utilization, or fulfillment, utilize one of the anti-desires declared below first.

Remember, at this stage, you don't have to give up fulfillment of the originally activated desires. All you have to do is only change the utilization order. First, utilize the anti-desires, then your previous needs.

- The need, the worst advisor is haste, you turn into a conscious desire that the pleasure of not changing anything, is greater than the pleasure if you had to stop sending Snapchat Streaks to that person.

- The need, after all, doesn't hurt to take a quick snapshot and send it as Snapchat Streaks, you turn into a conscious desire, that the pleasure of sending a snapshot, is greater than the pleasure if you hadn't taken that snapshot and sending it.

STEP 2. PRELIMINARY RESULT

As a result of the confrontation of these opposite desires,
you will generate a natural desire,
to reveal within yourself a hitherto undiscovered potential.

STEP 3. Decision:

In order to annihilate the negative energy charge, it is also necessarily to act proactively.

You make a decision that within the next 24 hours you will share your discovered by you conflict with your spouse, partner, friend, or acquaintance.

STEP 4. Confirmation:

I confirm that I have completed STEP 3.

- Yes
- No
- I completed after 24 hours

You have 24 hours to complete the entire 4 STEPS.

As soon as you confirm STEP 4, you can start filling out the survey, which is located below this recording.

You have a maximum of 7 days to complete the survey; that is until you receive your next perception.

Remember that we are currently in the preliminary market study; if you have any questions, please do not hesitate to contact us directly, at the email addresses available at the bottom of the page.
